📍 Ahmedabad   ☆ IT Engineer

SUMMARY

I am a recent graduate enthusiastic about pursuing a role as a Junior Software Developer. My strong passion for coding, coupled with the knowledge I've gained through my studies, drives my eagerness to contribute effectively to your team. I am fully prepared to dedicate myself to learning and enhancing my skills to provide valuable input and innovative solutions. Joining your esteemed company would serve as a significant foundation for my career in software development

EXPERIENCE

Internship   06/2023 - 07/2023

IBM Skills Build   Delhi

Company Providing us Team Internship in Front-end Web Development
- To address a real-world issue, we built the OYS (order your snacks) Software and we were able to solve 50% of the issue with the help of OYS.
- I oversaw all tasks and distributed them among the team members as the team leader.
- Making the presentation, adding components, and delivering the project's site map were all parts of my job.
- This is the website Address :- https://order-your-snacks.vercel.app/

Project   05/2023

Portfolio Website   Ahmedabad

Project Description
- The Portfolio Website project focuses on designing and developing a captivating and professional website to showcase my skills, experience, and accomplishments.
- Leveraging HTML, CSS, and JavaScript,
  My aims to create a visually appealing and user-friendly and responsive website that reflects my personal brand and leaves a lasting impression on visitors.
- This is website Address :- https://smit-portfolio.web.app/#

Project   11/2022

Musico Player   Ahmedabad

Project Description
- The Music Player app project in Android Studio is an exciting endeavor that focuses on creating a feature-rich and user-friendly music player application for Android devices.
- My goal is to provide music enthusiasts with a seamless and immersive listening experience while offering a range of functionalities to enhance their enjoyment.
